

Superior Business Outcomes Powered by
Digital Innovation

SIGMA AT A GLANCE

Sigma delivers innovative IT solutions in a variety of industries including FinTech, eCommerce, Technology, Telecom, Retail, and Healthcare, helping companies drive enhanced customer engagement, operational efficiency and return on IT investments. We excel at technology and strategy, the combination of which we employ to drive enhancement, engagement, efficiency, and ROI.

300+ technocrats strong, and with 28% of the workforce with over 10+ years of industry experience, Sigma brings unconventional thinking and decades of experience to the table. Since 2004, Sigma is passionately aligned with the cause of ensuring positive business outcomes for clients through digital innovation.

INDUSTRIES WE SERVE

FinTech

Online Retail

Telecom

Technology

Legal

Healthcare

SERVICES

BI & Analytics

BI & Analytics solutions driving actionable intelligence and real-time decision making

eCommerce

Sigma has a pedigree of 10+ years of transforming online stores worldwide. We combine creative thinking and technical craftsmanship to create captivating digital experiences for your online shop customers

FinTech

Sigma developed a revolutionary fin-tech product, LendFoundry, for the alternative lending industry, offering disruptive cloud-based, scalable solutions that transform alternative lending.

UI / UX

We tackle design in a strategic and more meaningful way. Through close collaboration, we align our purpose and intent with our client's business objectives. And, with research and an empathetic approach to our users, we can begin to understand their motivations and behaviors.

Digital Marketing

We learned early on what it takes to be a successful SEO firm that provides the level of service and support our clients expect. Evolving ever since, our experience has allowed us to provide the same level of quality services in all facets of digital marketing. One of the many ways we set ourselves apart from other agencies is transparency.

Product Engineering

Developing cloud-based, scalable applications for our clients which ultimately drive their success is our top priority.

"It's been a great experience working with Sigma. They were quick, efficient. We're very happy with the work they've done for us and definitely plan to work with them on future projects."

- Kelly Howell, Owner, Ashland, USA
